

Dixons Allerton Academy Newsletter

News and Events- Friday 28th June 2024

Welcome to our newsletter

As part of our drive to help the environment and engage more with parents we would like to introduce our newsletter. We think it looks bright and inviting, and more importantly will bring you key information about what is happening at the Academy for both Scholars and parents.

As a one off you may have received the link to this via text, in future this will only go out via email which is now our primary communication method. Therefore if you have not also received an email you may wish to contact admin@dixonsaa.com or ring us on 01274 089 890 so we can ensure your email address is up to date and correct on the system.

Attendance

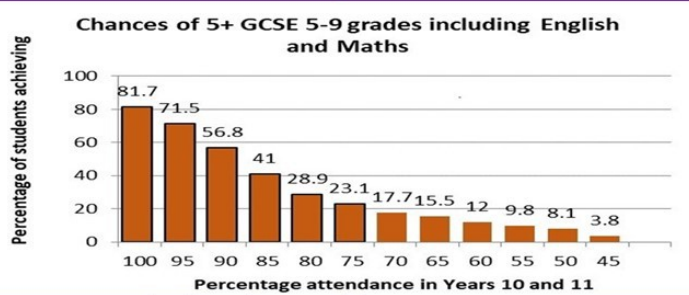

Attendance remains a focus for every school. Our biggest gift to your child is their education. We need every student to attend on time, every day so that we can provide them with the knowledge and skills they need to achieve exceptional results and fulfill their ambitious life choices.

Thank you for ensuring that you do not arrange any holidays during term time and that your child attends school every day ready to learn.

We expect 100% attendance. We know this will benefit your child and your family.

Good attendance gives the best chance of success to our young people. Good school attendance is vitally important to allow all students to achieve their full potential to embed characteristics of excellence in industry and work ethic which form a big part of our school values. In turn this has a significant impact on GCSE exam grades, contributing to social and economic well being in adulthood.

The graph below shows national research, on the importance of attendance on GCSE outcomes. Whilst an attendance of 90% may not seem that low, this research showed that it can reduce your child's chances of achieving 5+ GCSEs at grade 5-9 including English and Maths from around 82% to 57%. Therefore, it is vital that your child attends school every single day to maximise their educational experience, making every second count!

Year 10 Geography Hull Trip

Year 10 Geography students recently embarked on a fascinating trip to Hull to explore the city's regeneration efforts. The trip aimed to provide the students with a firsthand look at the city's transformation and its significance in the context of urban geography. During their visit, they witnessed the vibrant waterfront area, including the £40 million Marina and the iconic Humber Street, which has undergone significant redevelopment. Through this experience, the students gained a deeper understanding of urban regeneration, its challenges, and its benefits, which will undoubtedly enrich their geographical knowledge and perspectives.
